Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I searched a long time to find a phone service that I could afford On my SS budget, that allows me about \$10 per month.

I see people around me who are always on their cell phone -- I would like that luxury if I had their kind of money. I only use my wireless phone for safety, security and emergency needs. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Judie wester
